

## GLOBAL LOGISTICS SERVICES

# GETTING WHAT YOU NEED, WHERE YOU NEED IT—FROM START TO FINISH

In addition to procuring technology solutions, Myriad360 offers a variety of global shipping and logistics services to support your company's needs—whether you purchase your equipment through us or not.

### SERVICES INCLUDE:

Domestic and global shipping

Asset tagging

Engineering services

Freight forwarding

Warehousing

Vendor management

Customs (Importer of record)

Project management

Physical installation and cabling

## USING OUR SERVICES YOU'LL:

### Streamline Your Global Shipping

We have experience efficiently sourcing and shipping equipment to more than 130 countries, including to the most challenging ones such as Brazil, Russia, India, and China.

### Efficiently Clear Customs

We apply for all the in-country permits and certifications required to ship your equipment and comply with international laws and regulations. That way, you can clear customs quickly and avoid costly non-compliance issues.

### Securely Store Your Equipment Locally

Should you need to store equipment or spares securely prior to implementation, we'll arrange for secure storage and retrieval, in any region of the world.

### Expertly Deploy Your Technology

We offer a host of global, on-site implementation services to help you deploy and install your equipment globally.

## WITH YOU EVERY STEP OF THE WAY

Whether you need assistance with developing a global logistics strategy or someone to take care of the day-to-day details, we handle it all.

### Our team's expertise and experience includes:

- End-to-end global logistics
- International trade regulation compliance
- Identifying and mitigating risks of international deployments
- Tracking and monitoring your shipments

Plus, you'll have:

- **A Dedicated, Certified Project Manager** - Who serves as your primary point of contact throughout the entire process and ensures your equipment arrives where you need it, when you need it.
- **A Comprehensive Team** - Our highly experienced team of in-house procurement, shipping, logistics and deployment experts will handle the sourcing, project management, delivery and implementation of your project.
