

INTEGRATION SERVICES

MYRIAD360: ALL THE SUPPORT YOU NEED... EVERY STEP OF THE WAY

When it comes time for deployment, Myriad360's integration center offers the end-to-end services you need to customize your technology to your unique business needs and ensure your project is completed on time and within budget.

Whether you need assistance with configuration or integration, global shipping, and logistics, consolidating all your components, warehousing your equipment, or day-to-day project support, Myriad360 can help—regardless of if you buy your technology solutions from us or someone else.

OUR INTEGRATION SERVICES INCLUDE, BUT ARE NOT LIMITED TO...

Hardware Configuration and Imaging

We can configure and customize your technology to your organization's unique needs and ensure it's ready for deployment.

Custom Rack and Stack / Rack and Roll

We build fully configured server racks which are tested and ready-to-use, saving you time and money throughout the process.

Tagging, Labeling, and Packaging

We package, label, tag, and track every piece of your IT equipment to provide you with full visibility over your shipment and ensure a safe delivery.

Inventory and Logistics Management

We can inventory and securely warehouse your equipment until you need it. We also offer the expertise you need to cost-effectively and confidently ship your gear to more than 130 countries.

By using these services, you'll not only be able to deploy your technology faster, but also provide a consistent IT experience globally.

WHEN YOU WORK WITH US YOU'LL GET...

A Highly Experienced Team -

Our in-house team of engineers, procurement specialists, project managers, and global shipping and logistics experts will handle as much or as little of the sourcing, configuration, integration, implementation, and logistics of your project as you'd like.

A Dedicated Project Manager -

We'll also provide your organization with a project manager who will serve as your main point of contact throughout the entire process. Everyone on our project management staff holds Project Management Institute certifications, and has training in Lean Six Sigma.

BENEFITS

Save Time and Money -

We save your organization significant time by streamlining the process of configuring, deploying, and shipping your IT equipment where you need it. We also continually look for ways to save you money, whether by sourcing products at the lowest prices, consolidating shipments, or recovering taxes and fees.

Greatly Reduce Risks -

We'll work with you to proactively identify and mitigate all risks associated with your project. If an issue does occur, the Myriad360 team will address and resolve the matter quickly and update you.

Quickly Expand Your Team to Fulfill Large Orders -

We offer the IT resources you need to quickly expand your IT team to fulfill large orders and stand up new sites, or simply obtain the specific IT skills you need.
